Subject: 2021 NAC Fall Virtual Meeting Public Comment

The decision to transition the 2020 Census National Partnership Program to the Office of Strategic Alliances (OSA) is one that will empower communities like the AAPI community. The AAPI community has been historically underserved. Working in partnership with OSA will allow for a greater engagement for hard-to-reach communities. I am excited for this partnership and have no doubt it will serve all communities.

Thank you.
